

KENDRIYA VIDYALAYA BHANDUP SHIFT-1, MUMBAI

TERM II CMP NEWSLETTER-2022-23

Mr. Amar Chandra Rajput
Principal

A child is an immense reservoir of creativity and talent. Our primary aim is to ensure the holistic development of each student. In our Vidyalaya, our children are encouraged to learn through live experiences, providing them ample opportunity for hands on experience through physical & mental activities. To achieve the aims of NEP 2020 at primary level, our teachers always strive to make learning at school a joyful experience through FLN activities. Good habits & values are inculcated through moral talks in the morning assembly. The inquisitiveness and the spirit of enquiry amongst students are nurtured through meticulously planned teaching. It has been our earnest endeavour to project this newsletter as a showcase of the efforts and achievements of our students.

It gives me immense pleasure to share glimpses of school activities, curricular and co-curricular, with all the stake holders of KVS, through Newsletter Term2, session 2022-23. This document reflects activities performed by the students and their achievements with the efforts and guidance of the parents and of course their teachers as well. Such documents motivate every student to do well in all spheres of life including schooling. Primary classes are the nursery of making habits and inculcate values among the students so that they can grow as good citizens of the nation. I would extend my thanks to the editorial team for such wonderful document.
